

COMPANY GUIDELINES DURING STAGE 1

DINING AREA

- Our pub has reduced the amount of seats to 100 and spaced our tables 2 meters apart. We have closed every second booth to keep proper distancing.
- There is plenty of room to move in and out of the room, as well as room for staff to work while keeping the desired distancing.
- All condiments and menus have been removed from the tables and are sterilized before and after use.
- We ask guests to please let us suggest your seating as there will be less moving around the room trying to look for a table to sit.
 - We have put up notices through out the room and washrooms encouraging guests to continually wash their hands. We also have numerous spots where hand sanitizer is available to our guests.
- Our staff will sanitize each table before and after use. Washrooms will be sanitized regularly.

SERVICE

- All service will be table service only. We will not allow our guests to go to the bar to get their own drinks.
 - We have canceled our Carvery buffet until farther notice.
 - Our servers will be wearing masks while serving tables.
- Our staff are trained to preform hand hygiene frequently and understand the importance of this.
